

4-H Club Camps Are Guests Of U. T. Junior College For The First Two Weeks In July

200 Boys, Girls and Workers Attend Chief Summer Event on Campus

The West Tennessee 4-H Club Camp opened on the Junior College campus on Monday, July 1 and continued for two weeks, closing on July 13th. Between 600 and 700 boys and girls attended the camps in one-week shifts. As in previous years the camp was under the direction of Judd Brooks, West Tennessee director of club work, and Miss Mildred Jacobs, director of girls' clubs. The Junior College and faculty cooperated in all the activities.

Various tasks were assigned to various faculty people. S. R. Woods, Mrs. Florence Blackman, Mrs. Lucile Reed, Earl Knepp and Joe Black Hayes looked after sleeping arrangements for the club guests. C. C. Cravens and Gene Stanford had charge of eating arrangements. Outdoor concessions and assembly were in charge of George Horton. S. R. Woods, Joe Black Hayes and Mr. Gary looked after lighting and water supply. Athletics were in charge of Sam Garner and Joe Black Hayes. The streets and campus were attended to by C. E. Gatlin, Sam Garner and Mr. Gary. Instruction was under Mr. Garner, Miss Helen Cannon, J. E. McMahan and S. R. Woods. Miss Mary Vick Burney assisted the camp librarian with the facilities of the Junior College. For the junior and high school graduates meet, Mr. Horton, Mr. Allen, Kitchen, Miss Cannon and Miss Swindler. Mr. McMahan, Mr. Stanford and Mr. DeMoss looked after tenting and cots and provided for the milk supply. The general supervisory committee, whose duties were to cooperate in every way with the camp, consisted of Mr. McMahan, Mr. Garner and Mr. Stanford.

SCHEDULE FOR BOYS—1st WEEK

Monday—8:30 to 10:50 a. m., Farm Inspection; 10:50, athletics; 12:00, dinner; 1:00 leisure; 2:00 to 6:00, swim and athletics; 6:00, supper; 7:00, games; 8:00, music, games, soft ball.

Tuesday—8:30 to 10:50, 1. dairy cattle; 2. sheep; 3. beef cattle; 10:50, athletics; 12:00, dinner; 1:00, leisure; 2:00 to 6:00, show; 6:00, supper; 7:00, games; 8:00, music, games.

Thursday—8:30 to 9:10, entomology, poultry judging, electrical work; 9:10 to 10:00, poultry judging, entomology, electrical work; 10:00 to 10:50, electrical work, entomology, poultry judging; 10:50, athletics; 12:00, dinner; 1:00, leisure; 2:00 to 6:00, supper; 7:00, games; 8:00, games, music, game conservation.

Friday—8:30 to 9:10, entomology, crops judging, farm motors; 9:10 to 10:00, crops judging, farm motors, entomology; 10:00 to 10:50, farm motors, entomology, crops judging; 10:50, athletics; 12:00, dinner; 1:00, leisure; 2:00 to 6:00, swim and athletics; 6:00, supper; 7:00, games; 8:00, amateur contest.

Assignments—Judd Brooks, Camp Director; W. C. Mitchell, Leader, Group 1; M. L. Alphin, Leader, Group 2; D. B. Carter, Leader, Group 3; G. C. Richardson, Leader, Group 4; O. U. McKnight, Superintendent Kitchen; O. J. Nunn, Swimming; S. G. Garner, Dining Hall; Supplies: C. O. Woody, Dining Room; N. S. Martin, Athletics; Night Programs; Franklin Yates, Cold Drink Stand, Registration.

Instructors—Paul Meek, Executive Officer; J. E. McMahan, Farm Inspection; C. C. Cravens, Farm Inspection; W. R. DeMoss, Livestock; R. B. Hicks, Electrical Work; Geo. Horton, Entomology; S. R. Woods, Farm Motors; Joe Black Hayes, Physical Education; Earl Knepp, Farm Motors.

Counties represented first week were: Carroll, Crockett, Dyer, Fayette, Chester, Haywood, Hardeman, Hardin and Obion.

The second week 11 counties attended and according to Mr. Brooks the record number of 500 boys and girls attended the camp.

Meek To Knoxville

Paul Meek, executive officer of the Junior College, made a trip to Knoxville July 26, to remain a few days. Official business took him to the campus of the University of Tennessee. Mr. Meek made another trip across the state recently on the same general business for the Junior College. Mr. Meek was accompanied on his motor trip by Willard Bedwell.

Stanford Attends Camp

Faculty Boys Will Accompany Him In August

Gene Stanford, associated for years with Scouting, will again this summer assist with the troupe camp to be held at White Oak, early in August. The definite date is not yet known. Stanford will be assisted in the camp by former Junior College grads, notably Paul Mayhew, James Harrison, and Harold Hoffman.

Vol's 1940 Football Schedule

Sept. 27, 8:00 P. M. (Martin)
Vols vs. Southwestern Freshmen
Oct. 4, 8:00 P. M. (Martin)
Vols vs. West. Tenn. T'chrs. Freshm'n

Nov. 1, 8:00 P. M. (Martin)
Vols vs. Northwest Miss. College
Nov. 8, 2:30 or 8:00 P. M. (Martin)
Vols vs. Arkansas State College
Nov. 15 OPEN
Nov. 21, 2:00 or 8:00 P. M. (Pulaski)
Vols vs. Martin College

College Librarian Will Go To N. Y. To Attend Meeting

Miss Mary Vick Burney, Librarian of the Junior College, will be called to New York for a special meeting of the Committee on Budgets, Compensations and Schemes of Service of the Association of College and Reference Libraries early in the autumn. The committee was appointed in 1939 to work with the Board on Salaries, Staff and Tenure of the American Library Association of higher learning, and Miss Burney was selected to represent the junior colleges in furthering this work.

Regular meetings of the committee are held semi-annually. The problem calls for a thorough study of the literature of the questions involved, for general familiarity with college and university libraries gained through experience, and for constructive work in building a reliable yard-stick by which libraries may rate themselves. The results of this study will represent the pooled opinions of the members of the special committee, of the members of the A.L.A. board appointed to work with the committee, and of hundreds of prominent librarians and other educational leaders.

Home Economics Staff Give Talk Before 4-H Club

On the opening night program of camp Miss Mary Hill gave a short talk on "Camp Manners."

Miss Helen Cannon talked before the girls on two afternoon programs on "The Popular Arts of Central America." Besides the talk she displayed the collection of popular arts which she has collected during the past two summers on her trips to Guatemala and Mexico. The collection displayed included textiles, costume, jewelry, and baskets.

Miss Nina Swindler discussed for the girls "Table Service." She illustrated her points by demonstrating the correct manner to set a table for a family dinner and also the correct use of various pieces of silver and china.

In recent elections of respective clubs Prof. J. Paul Phillips was made president of the Lions Club, and Gene Stanford was elected president of the Rotary Club of Martin, thus giving the Junior College good representation in the city's club circles.

EXECUTIVE OFFICER

Paul Meek

FRIENDS AND STUDENTS:—

* This issue of The Vquette is sent to you as a sort of greeting card from your Alma Mater. Busy as we know you are with vacation, we know you have a quiet, friendly corner in your memory for the Junior College, and would want to hear from many of your fellow students on the campus since you left it several weeks ago. Here in these pages we have brought you reminders of the gay and active past, and we want to remind you too that we shall be looking forward to your return with more pleasure than we can say without drifting into sentimentality. Count this as our handshake, and all power to you.

PAUL MEEK, Executive Officer.

HOME DEM. AGENT

Dorothy DeBow

Recent UTJC Girls Are Now Home Demonstration Agts.

Miss Cannon was beaming with pride during the 4-H Club Camp over the fact that two of her students were back on the campus as full-fledged Home Demonstration Agents. They were taking an active part in all the camp activities and doing an excellent job of it too, according to Miss Mildred Jacobs who is West Tennessee supervisor.

These students were Marie Baker and Dorothy DeBow. Marie is from Bolivar. She graduated from the Junior College in June 1937 and from Knoxville in June 1939. She taught home economics during the fall of 1939 and accepted the position of home agent in Weakley County last January. Dorothy is from Union City. She graduated from the Junior College in June 1938 and from Knoxville last June. She does not know as yet which county in West Tennessee she is to have. The next few months she will work in several of the counties getting familiar with the work and getting acquainted. Her face this summer was out-shining Miss Cannon's—in fact, she was about the happiest person around the campus this summer. And who wouldn't have been happy over graduating in June and getting a job in July in your own section of the State in just the line of work for which you had trained?

Record Enrollment Expected At Univ. of Tenn. Jr. College At Opening of Fall Quarter

ATTEND FARMERS INSTITUTE

Paul Meek, executive officer of the Junior College, S. C. Garner, extension man, and Prof. McMahan and Ray DeMoss attended the West Tennessee Farmers Institute, held at the experiment station at Jackson, July 23-24.

Captain Gatlin Leaves For Service In U. S. Army

UTJC Economics Professor Goes To Sabine River Area

C. E. Gatlin, associate professor of Economics at the Junior College, will attend the war maneuvers beginning Aug. 4. Lieutenant Paul Mayhew has also been ordered to report for the mimic war games. This is part of the national simultaneous exercises, held by the country's four armies in five maneuver areas in the East, South, Middle West, and West. A total of 300,000 Regulars, National Guardsmen and Reserve Officers are to participate; thus virtually all of the country's regular and semi-trained fighting men will be in the field simultaneously for the first time since the World War.

Mr. Gatlin, who is a captain in the reserves, and Paul Mayhew, will be at the Sabine River area of Texas and Louisiana. Almost 70,000 soldiers from Texas, Colorado, New Mexico, Arizona, Alabama, Florida, Georgia, Louisiana, Mississippi, No. Carolina, So. Carolina and Tennessee will participate in the maneuvers.

Alumni-Faculty Entertainment

Alumni, faculty, and new students will be entertained on Aug. 29, 1940, with a dance and reunion at the Physical Education Building of the Junior College. The dormitories will be opened for the convenience of out-of-town guests, and a large number of former students are expected. The orchestra has not been selected, but a good one is assured. Price: \$1.00.

Miss Caldwell Honored By DKG At Lookout Mt. Hotel

The state meeting of Delta Kappa Gamma was held June 15 at the Lookout Mountain Hotel.

This is a national woman's teachers fraternity. One must have taught five years before one's name can be put up for consideration and a member never knows who turned in her name.

Business meetings were held during the day with a luncheon meeting at noon and a banquet in the evening. Preceding the banquet was the initiation of three new members. Miss Billie Caldwell was one of the teachers initiated at that time. Since this organization does not have a chapter in Weakley County Miss Caldwell will be a state member.

The national president and treasurer were among the speakers at the convention.

Gatlin Assumes Charge Of The U of T J C Book Store

C. E. Gatlin assumes chg book store.

Following the resignation of Dr. Schmidt from the chemistry department, the manager of the book store in previous years, the management has had to be transferred to other shoulders. C. E. Gatlin, who formerly had the book store before Dr. Schmidt, now goes back to the post.

Margaret Cook will remain post mistress. Miss Cook had planned to enroll at big UT next year, but changed her plans to remain at the Junior College another year, by which time she would be able to go right through and finish her college work without further break.

The book store thus will be open for business as usual, without much change of face.

Freshman Class To Include Prominent High School Graduates

Each year at the opening of the University of Tennessee Junior College there has been a healthy increase in enrollment over the previous year. This has been true of every session except perhaps one or two in the very bottom of the depression.

This year—session of 1940-41—will be no exception, from all indications. Among the signs of improved enrollment are, first, better crops in West Tennessee and better times all over the country; two, more contact work by faculty members in the field, who report enthusiastic response to their efforts to extend the services of the Junior College to high schools in this territory; third, the fact that the Junior College as a part of the University of Tennessee, offering courses that have full credit in any college or university, is becoming more widely known each year. This knowledge spreads through alumni, and friends of the Junior College, as well as such events as the recent 4-H Club Camp on the campus.

Reservations in the residence halls for men and women, too, are a sure promise of record enrollment; and among those who have made arrangements for rooms are many locally prominent graduates of their respective high schools.

Students who have made reservations in the Residence Halls of the University of Tennessee Junior College for the session of 1940-41 are:

GIRLS:—

Lesa Cook, Beardstown; Betty Jane Cox, Covington, Home Economics; Maurine McCalla, Covington; Mary Ellen Lowe, Eagleville, Home Economics; Frances Seay, Route 1 Lebanon; Ruthelia Ferrell, Route 5, Fulton, Ky.; Adelaide Presnell, Buchanan; Kathryn Moody, Tiptonville, Home Economics; Mary Shelly, Rogers Springs; Jane Lawler, Trenton, Business Administration; Martha Pybas, Trenton, Chemistry; Carolyn Bowden, Union City, Pre-Med.; Marian Moore, Obion; Dorothy Ann King, Obion; Le Ella Robertson, Union City, Home Economics; and Jane Walker, Obion.

BOYS:—

James Fry Bridges, Camden; Erwin Bryant, Tiptonville; T. F. Brooks, Jr.; James Noel Caldwell, Union City, Agriculture; William Melvin Chambers, Hornbeak; Walter E. Campbell, Archville; J. B. Cathron, Jr.; David Samuel Gardner, Jr., Savannah, Pre-Dentistry; George Hayes Kendall, better known as "Teency," Hornbeak, Agriculture; Gerald McDaniel, Troy, Ag. Engineering; Charles Nickell, Bold Spring, Agriculture; J. P. Nunnally, Vernon; Norman Murray, Ruthersford; Frank W. O'Donnell, Bells; Herman Rymer, Archville, Agriculture; H. D. Scott, Route 3, Martin; Odie B. Stover, Eldridge, Agriculture; and Lacy Williams.

Junior College Subject Of Study by U. of C. Educators

A committee appointed by the trustees of the University of Chattanooga to study the question of introducing a two-year program of home economics there will visit the Junior College campus for the purpose of studying the set-up here as a pattern.

This university group, headed by A. M. Palmer, president of the University of Chattanooga, is scheduled to reach the campus either Wednesday or Friday of next week. Paul J. Kruesi, a trustee of both the University of Tennessee and University of Chattanooga, recommended that the Junior College be studied as a model of the new courses to be offered.

Kruesi And Smith Awards

The Kruesi award at commencement was made to Fred Copeland Powell of Dyersburg. The Smith awards went to James Glasgow; and Nancy Sue Smith, of Lexington.

The Volette

Special Summer Issue

This number of The Volette is published by the University of Tennessee Junior College in cooperation with the Book Store Committee.

4-H CLUB CAMP

The 4-H Club Camp has come to be a fixed annual institution on the Junior College campus; and there is nothing that the administration and faculty of the school had rather be a part to than this group of eight or nine hundred boys and girls and leaders in West Tennessee.

As we ponder these boys and girls, and the work they do back on their farms and in their homes, we realize they are destined to form the bone and sinew of an immediately coming rural generation. They are a new school of youngsters. They are the people in any given neighborhood who already are on their tiptoes, learning to produce, to lead, to make good. While in camp they have a lot of fun and get some formal instruction in that they have already accomplished, and no small encouragement in going on to greater glory, just the same they are known by and tested by what they have done back in the quiet day-by-day job with their corn and cotton projects, their canning and home crafts projects, and all the rest of their varied activities.

We have always had a notion that the things and events that make plunges are just the bang-bang of the club weeks on the campus. Nothing has given us more joy than to step to the lusty singing that came in the twilights from the stands or to watch the folk-palying to good old tunes like Pop Goes the Weasel; but back and beyond this was the un inspiring labor over canner, or out in the open field, where there was no pop-going-the-weasel. It is back here that Judd Brooks and Miss Jacobs, and their band of earnest and consecrated workers have stored up the daily powder that goes off with such a joyous bang here on the campus.

We welcome the camp, we speak his word of appreciation to those who, back of the firing lines, made it all possible. More power to them that the glory may last on forever.

NOTE OF APPRECIATION

The summer issue of The Volette is not a continuation of the student activity that it is in regular session, but the result of efforts put out by various faculty contributors. The labor of many hands has been in this project, but there is one hand that we think deserves very much of a hand. That is Mrs. Gatlin's. Mrs. Gatlin has contributed the alumni news, all the vast number of items that fill several columns in this issue. In order to cull this bulky content she had to scan not hundreds of news items, but actually hundreds of whole issues of scores of newspapers from the four winds of West Tennessee. We give her a great hand, and our profound thanks.

ALUMNI MAKE GOOD USE OF BOOKS FROM UNIV. LIBRARY

Library records show that 59 women and 20 men from the alumni rolls of the Junior College borrowed a total of 684 books from the College Library last year. The average number by members of this group was 8.8 books, the range being from 1 to 111.

The purpose of these borrowers ranged from that of the general reader seeking the latest best sellers to that of the teacher or community leader intent on up-to-dateness and educational advancement. As members of study clubs, alumni have arranged their programs and written their papers from material in the Library. As county and home demonstration agents, they have sought here the solutions of many of their problems. Alumni have built personal, club and community book collections on the basis of advice secured at the Library, and the children of alumni have sat entranced as they heard the stories of Little Black Sambo and of the Animals of the Bible read from books from the juvenile collection.

This group of 70 ex-students has demonstrated in a very real way a continuance of educational interests after college days.

Weddings, Births, Jobs Spice Alumni News

Leonard Lackey, 1931-1932, has resigned as head coach of Grove High School. He has been appointed head grid mentor at Central High School in Columbia and will teach in the Science Department. He will succeed Charley Kerr to the post, with Kerr going to Cumberland University as head coach.

Coach Lackey's period of service at Grove was one that saw high school football reach an all-time high in Paris. Going there in 1935 after graduation from TPI, Lackey first was assistant coach under Dan Robison, who resigned in mid-season, and Lackey was elevated to the chief post without an assistant for the remainder of that year. The Blue Devils have lost only two of their last 27 games. Lackey will attend a coaching school in Memphis before going to Columbia in August.

Bryan Robinson, 1935-37, who went to Grove as assistant, after two successful years at State Teachers College on Sonny Humphrey's team, is most popularly approved for the place as head coach.

W. B. Ennis, Jr., 1935-37, who has been attending the University of Maine, is spending his vacation with his parents in Martin.

Josephine Parks, 1934-36, has recently been appointed as Home Economist of the Southwest Tennessee Electric Membership Corporation. Her office is in Brownsville.

Mark Henry Luttrell, '36, was married June 29th to Mary Margaret Richardson of Knoxville, daughter of L. A. Richardson of the University of Tennessee Agricultural Extension Division, and Mrs. Richardson, state president of the American Association of University Women. Mayo Pearson was best man, and Frank Bell was an usher; they were both classmates of Markey, who is assistant agent in Madison County.

Theresa Lawler, U.T.J.C., '38, has been appointed home economics teacher at Santa Fe, Tenn.

Madge Madden, '38, member of Nu and Tri Delta will teach in Shelby County next year. Madge has just had a trip through Virginia, with her mother and sister, Martha. She was a June graduate at Knoxville.

Juanita Ward, '41, of Trenton, was the guest of friends in Martin, July 21.

Frank Bell, 1934-1936, vocational teacher at Spring Hill, Tenn., will wed Miss Edna Bentley, daughter of Dr. and Mrs. Bentley of the University of Tennessee, in the late summer. Frank was a member of Alpha Zeta and Phi Kappa Phi at the University.

Frank Phillips, '36, was married June 16 at the Methodist Church in Gibson, Tenn., to Miss Evelyn Edwards.

Margaret Cook, '39, is attending summer school at Knoxville. She will be in the U.T.J.C. book store again this coming year.

Arlynn Bruer, UTJC, '38, has joined the news staff of the Union City Daily Messenger as reporter. He received a liberal arts degree in June from big UT.

Watson McClean, '38, has received a fellowship to Louisiana State University where he will do graduate work in political science; part of his time will be spent in the Institute of Public Affairs in Washington, D. C. Watson graduated from big UT in June.

James Morris Nunnally, '38, has been engaged by the Borden Milk Co. as a member of the staff at the "Dairy World of Tomorrow" exhibit at the New York World's Fair. He was engaged on recommendation of the college authorities at the University of Tennessee, where he is a senior in the School of Agriculture.

J. N. Hall, '37, was among the 1,100 persons who received diplomas at the Commencement exercises of Purdue University at Lafayette, Ind. J. N. received a degree in mechanical engineering; while attending the Junior College, he was an honor student. He is now with the U. S. Army Air Corps at Tulsa, Okla.

Robert Kelly Roney, 1932-33, formerly field man for the Craddock Cannery, is now located at Union City, where he is superintendent of the plant. He was a recent visitor on the Junior College campus.

Darnall Gordon, '35, is now assistant County Agent of Carroll County.

L. T. Alexander, who is teaching at Jasper, Tenn., was a recent visitor to the Junior College campus and brought a prospective college student with him.

Andy Renshaw, '40, is working with the AAA in Shelby County.

Troy Cain, '40, is working with the farm program at Camden.

Billie Dick Brown, '40, is managing a farm near Gallatin.

Harold Rose, '41, is with the Farm Security Administration, working in Sumner County.

Rodney Pernell, '40, is working in Wilson County, with the Farm Security Administration.

Charles Smith, '40, is working with the Farm Security Administration in Jackson County.

Robert Harrison, U.T.J.C., '36, received his degree in architecture at Georgia Tech in June.

Sam Melton, "Scatter" Carlton, Evelyn Kirk, and Sara Dickson, all of the class of '40, are teaching school this year.

Janet Chambers, U.T.J.C., 1936-1938, received a bachelor of arts degree from the University of Kentucky, in June.

Mary Frances Lee, '39, one of the top ranking students in the Department of Home Economics at the Ju-

nior College, and winner of the Smith Award in her freshman year, was judged the best model by Miller's Department Store in Knoxville. She will be a senior "on the hill" next year.

Polie Arnold, winner of the \$25.00 cash prize in 1939 as the best forensic speaker, was a visitor in Martin the Fourth of July.

Virgil Luck, '35, was married June 14 to Annie Kathryn Rives of Ross-ville.

Mary Emma Askeew, 1938-1939, was married recently to Charles Edward Ceherry, Jr., of Dover, 1938-1939.

Ernestine Diggs, '36, was married June 16 to Joe David McClure of McKenzie and Rives. Mr. and Mrs. McClure will reside in Rives where both will be connected with the public school system.

Ruth Ann Whitis, '37, was married July 20 in Greenfield to Cecil James of Milan. Jane Mayo, Ellen Mayo, Frances Hansbrough, Junior College classmates of the bride, were in the wedding party, and Phil Barton Harris, '36-'37, was one of the groomsmen.

Ben Taylor, U.T.J.C., is attending Vanderbilt this summer; he is studying foreign languages preparatory to entering the Harvard School of Diplomacy.

Woodrow Forbes, better known as "Lard," 1930-1932, is one of the senior class sponsors of Munford High School, where he is coach. Munford classes save money throughout their high school years to pay the costs of the summer trip, and the 1940 graduating class has just completed a trip to the West Coast.

Watson Craig, '39, is traveling over the state for the University Extension this summer. Mrs. Craig, nee Mary Alice Ramer, is in summer school at Knoxville.

Frank Taylor, captain of U.T.J.C. football team, 1931-1933, who is now principal of schools at Dresden, will receive his masters degree from Peabody this summer.

Brady Taylor, 1932-1933, will receive a master's degree from Vanderbilt in August.

Martha Covington, 38-39, beautiful blonde from Greenbrier, has been crowned "Miss Greenbrier," and will be the representative in the Montgomery County finals later in the summer. She will compete in the "Parade of the Queen" feature at the Robertson County Tobacco Festival to be held in Springfield in October.

Virginia Clark, '39, will be married in early August to Wilbur Vaughan, '38.

Mary Lynn Travis, outstanding scholar of the class of 1939 in the Liberal Arts Department, was a very popular member of the junior class at big U. T. the past year.

M. L. Alphin, agent of Hardemann County, received much credit due to his help in putting over the Harde-man County Times poultry project. Alphin was a member of the class of 1931, and was a valuable member of 1930-1931 football squad.

Sarah Scruggs, 1929-1930, was married July 18 to Joe Patterson of Huntingdon.

Robbie Hart, assistant home agent, recently reported an interesting meeting of 4-H Club Girls at Oglesby in Davidson County. After lessons in patching, sewing, and hem-stitching, the hostess, Dorothy Little, carried them through the diary. She explained how the bottles were washed, how buttermilk was made, and how pasteurization as done. She served refreshments of chocolate milk, ice cream, and orange juice, made in the dairy.

Robbie is well remembered at the Junior College for her brunette beauty and vivacious charm.

Ernest Huffstetter, Obion County Supervisor of the Farm Security Administration, was a member of the class of 1936.

James E. Tice of Sharon, one of the outstanding agricultural students of U.T.J.C., 1935-1937, is teaching at Kenton High School.

John Marshall Martin, Jr., attended Johns Hopkins University on a scholarship during the past year. John Marshall was graduated with honors from the Junior College in '37, and attended the University of Tennessee in 1938, where he won honors in the History department. He is a guide at Yellowstone National Park during the summer.

Martha Ellis, 1933-1934, was married at Belmont Heights Baptist Church in Nashville, June 7, to Vernon Fred Wells.

James Dent is doing special research in Biology at Woods Hale, Me., during the summer.

Dorothy De Bow, Mildred Fisher, Janie Brown, Martha Allen, Helen Day, were recent visitors on the campus.

Frances Kinton, Martha Jackson, Flora B. Moore, Jo Glover are working with the AAA program this summer.

The following young ladies have visited Mrs. Reed in the Girls' Dormitory during vacation: Sara Helen Wheatley, Jo Young, Martha Moore, Dorothy Wash, Frances Speight, Fairy Nowell, Connie Sherrill, Sara Todd, Fay Tolley, Juanita Ward, Le-labelle Scruggs, Dorothy Jackson, Virginia Webb, Katherine Ford, Ruth Latimer, Mildred Viar, Helen Goodwin, Louis Gregory, Theresa Lawler.

Mamie Elyse Ramer, '32, who recently had an appendectomy in St. Thomas Hospital, Nashville, has returned to her duties as District Supervisor in State Welfare work, with headquarters at Columbia, Tenn.

Attending the summer alumni dance at the Claridge Hotel, July 12, were 145 former Junior College students.

Raymond Kenney, '32, has been elected principal - of the Clarksburg High School. Other members of the faculty are Martha Moss of Bruceton, '37, Opal Ora Pritchard and Mrs. Raymond Kenney, '32.

Ruby Moore of Dresden, '37, will be a member of the Dresden Elementary School faculty for the coming year.

Mary Tenney Jeter, '33, will teach in Dresden next year.

Dorothy Warren, '32, became Mrs. John Galasso, in Martin, in a beautiful candle-lit ceremony at her home, July 13. Dorothy has taught at Roanoke since her graduation from the University where she was a popular member of Chi Omega Sorority. Mr. and Mrs. Galasso are living in Roanoke, Ala., his home. Dr. Paul Morris Fitts, U.T.J.C., 1929-1931, and Mary Warren, 1932-1933, were the only attendants in the wedding.

Sara Helen Wheatley, '40, visited in the Girls' Dormitory, July 20.

Jack Whitson of Obion entered the United States Military Academy July 1. Jack attended the Junior College 1937-1939.

Frank Hamilton, Jr., of Selmer, Writes On - - -

- Why I Came To UTJC -

By FRANK HAMILTON, JR.

Ever since I can remember I have had an ambition to attend college. It did not matter which one I attended, just so I was going to school.

As I grew older my ideas and thoughts of college changed. I began to look for certain colleges. I wanted the best. I could look around me and find men and women with degrees from certain colleges teaching school for a few dollars a month. I began to check these off my list. I wanted a degree that would mean something. I did not have the ambition to come home and take a fifty-dollar-a-month job.

I had a list made of several colleges I would like to attend by the time I was in my second year of high school. That period of my life seemed to be filled with thoughts of the future.

During the following summer my hopes fell. I realized my father was not financially able to send me through college. For some time it seemed that there would be no hope for a college education. During the following months I was very sad and moody.

Our school changed principals in 1938. It was through this new man, Prof. W. G. Robinson, that I began

to realize I could go to college if I had enough ambition. My grades were good. He told me if I would study hard and keep my high school average high he would assure me of a college education.

At the close of school, 1939-1940, my principal asked me where I was planning to go to college. I had given the matter serious thought and had decided upon the University of Tennessee. He asked me about coming to the Junior College. I accepted readily because I had been planning to attend U. T. Junior. During the last week of school we made a trip to Martin. He helped me get my present job and gave an excellent recommendation.

I had heard U. T. Junior College was one of the best junior colleges in the South. I talked to students and teachers about the school and found everyone recommended it very highly. I did not need to do that, however, the college's record stands out. The type of students it turns out are symbols of the ability of the teachers and the quality of the school.

I had an ambition to receive a degree from the University of Tennessee and since I did not have enough money to go to Knoxville for four years, it is much easier to go to Junior College than some other school,

The records of the Junior College are easier accepted and its recommendations mean much more.

U. T. Junior College has an ideal location. It is located in a temperate climate in the center of the agricultural section of West Tennessee. It is located in a nice town. The presence of the many churches affords spiritual life for the student as well as school life. Good roads in every direction make it easy for transportation to and from school.

The athletic program of the school is very efficient. The swimming pool is in excellent condition and modern equipment can be found in all the store rooms for football, basketball, tennis and various other games. The gym is a new building and the floor is of the highest type of materials. The golf course affords amusement for late afternoon.

The campus is very beautiful. The buildings are kept clean and the shrubbery around the buildings is trimmed and free of grass. The boys have ideal equipment for the agricultural classes. The Home Economics Building is modern in every way. The moral school life is high for a school of its size.

For a small college, it would be hard to prove to me one could beat U. T. Junior.

MORE ALUMNI NEWS

Mary Louise Gladish of Lawrenceburg, Kreusi prize winner of the class of 1939, is attending a house party in the home of Edith Garner at Trimble. She will also be the guest of Miss Billie Caldwell a few days at Union City, and of Mrs. Reed at the Girls' Dormitory this week. Mary Louise, outstanding scholar in the Home Economics Department of 1939, will return to the University of Tennessee at Knoxville next fall.

Martha Moore, '41, of Tigrett, is visiting in St. Petersburg, Fla.

James Hall ("Uncle Lee") of Dyer is to teach in Rutherford the coming year. James attended the Junior College in 1936-1938, and was a member of the class of '40 at Knoxville.

Sara Wingo will receive her degree in Library Science at Peabody in August. Sara received her degree from Judson College in Alabama after attending the Junior College in 1932-1933.

Thomas Augustus Flake, U.T.J.C., 1935-1936, was married in March to Mary Kathryn Thomas of Paris. Tom was editor of The Volette. He is news editor of The Parisian, of Paris, Tenn.

Lelabelle Scruggs of Rutherford, Tenn., visited on the campus July 20.

Melba McClean, '34-36 was married on June 23 to Buster Riddick at the First Christian Church, Alamo, Tenn.

Misses Martha Rast, Frances Kennedy, Louisa Waggener, and Mary Warren attended the annual vocational home economics conference in Knoxville, June 3-7.

Mrs. Ute Halliburton, nee Ruva Jones, '34, was organist at the First Baptist Church at Covington for one of the city's June weddings. Ute, '35, is considered a very valuable member of Tipton County's Agricultural Extension Service.

Ben Rowlett, U.T.J.C., '34, is working with the Farm Program in Obion County. Ben attended the University of Tennessee the past year.

Lucille Biggs, U.T.J.C., '36, is attending summer school at Murray.

"Bob" Denholme Clark, Martin, '34, who finished with honors from both the Junior College and big U.T. is in the research department of Purina Mills in St. Louis.

Mrs. S. T. Bowlin, nee Edith Edwards, magna cum laude student in 1936-1938, is assistant to the County Court Clerk in Dresden.

Mrs. Lathan Settle, nee Margaret Edwards, who lives in Clarksville, is visiting her sister, Elizabeth Edwards in Martin and Dresden.

Jack Hannings, '34, who is now working in Dodge City, Kansas, has recently visited in Martin with his mother, Mrs. L. C. Hannings.

Mr. and Mrs. Fred Blatt, 1930, were recent visitors in the home of Mrs. Blatt's parents, Mr. and Mrs. J. E. Morris of Martin.

Mr. and Mrs. Bob Elliott, 1930, and daughter, Bobby Jean, have returned to their home in McKinney, Texas, after visiting Mrs. Elliott's parents on Elm Street. Bob was captain of the 1929 football team, a member of the athletic council, and vice-president of the sophomore class. He has been prominent in Boy Scout work in Arkansas and in Texas. Mrs. Elliott, formerly Masel Wilson, is well remembered for her brunette beauty; she attended the Junior College in 1929-30.

Mrs. J. E. Nichols, nee Elizabeth Pressly, '29, is teaching in the Louisiana State University Library School this summer. Elizabeth graduated from the University of Tennessee where she was voted the best pledge of the year in the Zeta Tau Alpha Sorority; for two years she was in charge of the Young High School Library in Knox County; she is working in the Reference department of one of the branch libraries of the City of New York, while J. E., '23, attends Long Island Medical School, where he has been studying for two years.

Dorothy DeBow, '38, among the June graduates from Knoxville, is a member of the Obion County personnel of Extension service workers. She attended the 4-H Club Camp for two weeks on the Junior College campus.

Mr. L. O. Colebank, who is assistant 4-H club director in the state, was on the Junior College campus for part of the recent encampment. Mr. Colebank was a member of the Junior College faculty 1928-1933. Mrs. Colebank, formerly Miss Edith Hunt, was a member of the Home Economics staff of the Junior College 1928-1933. They are living in Knoxville, and have a daughter, Frances Ann, who was born in March.

Former Members of Faculty Active on Campus Now Are Prominent in Other Fields

Mr. James Corbitt, assistant professor in the Industrial Engineering Department at the Junior College, 1931-1933, has recently moved from Dresden where he was Camp Engineer with the CCC, to Murfreesboro, where he will be engineer of the Conservation camp, located there. Mrs. Corbitt and daughter, Betty, will remain in Dresden until after Mr. Corbitt returns from his detail of duty at Fort Benning, Ga., in July.

Miss Neta McFee, formerly a member of the Home Economics faculty of the Junior College, is now working with the State Parent Teacher Association, with her headquarters at Nashville.

Mr. and Mrs. H. K. Grantham have recently moved into a new home in Tupelo, Miss. Mr. Grantham formerly Coach and Director of Physical Education at the Junior College, is now manager of the Pepsi-Cola Bottling Company of Northwest Mississippi. Mr. and Mrs. Grantham and their three pretty daughters were welcome visitors to Martin in the Spring.

Mr. and Mrs. C. P. Claxton, who was formerly executive officer of the University of Tennessee Junior College, were visitors in Martin, and on the campus, during the Christmas holidays. They were accompanied by their two children. Mr. Claxton is now associated with rural education at the University of Georgia.

Alumni Here in Official Capacity for 4-H Club Camp

Among the home and county agents who are alumni of the Junior College, who were on the campus in an official capacity for the 4-H Club camps July 1-13 were: Markey Luttrell, assistant county agent of Madison County; Ivie Drake, home agent, Tipton County; Ute Halliburton, assistant county agent, Tipton County; R. A. Darnell, agent, Henderson County; Marie Baker, home agent, Weakley County; Mamie Milam, home agent, Gordon Barrett, agent, Benton County; Erin Tice, home agent, Obion County; M. L. Alphin, agent of Hardeman County.

Lieutenant Paul Mayhew of the 310th Cavalry returned recently from Fort Oglethorpe, Ga., where he spent two weeks in active duty training.

James Wilbur Harrison, after spending three months at home, left recently to reenter U. T. Medical School at Memphis where he will continue his studies.

Donald Duke, '29, and Mrs. Duke, formerly Miss Elizabeth Allen of Hopkinsville, Ky., went to East Tennessee on their wedding trip. They were married in June, and are now at home in Union City.

Effie Maiden, who teaches at Whitehaven, was a recent visitor on the Junior College campus.

Jane Mayo of Greenfield, U.T.J.C., was introduced as a member of the Weakley County Welfare Staff at the Public Welfare Day Banquet, Friday, July 12, at the Baptist Church in Dresden.

Erma Odom, 1929-1930, now Mrs. C. A. Flowers of Puryear, and her daughter, Peggy Jean, is spending the summer in Knoxville where Mr. Flowers is studying.

Louise Odom, Paris, 1937-39, was a recent visitor when she brought two prospective students to the campus. She teaches at Mansfield, and will complete the requirements for her degree at the University.

Marjorie Overton is a member of the Weakley County Welfare staff with her office in Dresden.

The announcement of the marriage of Anita Mulherin, '40, and Martin Curtis, '40, has recently been made. Both were popular students of the Junior College, 1938-1940, and their many friends at the College wish for them a happy life.

Mr. and Mrs. Crocker Watson of Huntingdon have a baby daughter, born July 21st. Mrs. Watson was formerly Kathryn Kimery of Greenfield of the class of '38.

Agricultural Engineering At U.T.J.C. Equips Students With Training To Do Jobs That Are Much In Demand

Prof. S. R. Woods Reports Many Engineering Grads In Fine Jobs

We hear much these days about the integration of Industry and Agriculture. Mechanizing the Farm, Conservation, The Nation's Economic Problem No. 1, and similar topics, which all point to the growing need for Engineers of all types. Any young man finishing high school now, who has a love for mathematics and a mechanical turn of mind should consider the profession of Engineering. The South is calling for more and better trained technical men, especially in the field of Agricultural Engineering.

During the four years that two years of Engineering has been offered at the University of Tennessee Junior College, approximately 100 students have taken courses in engineering. Of that number a few have graduated in engineering, others are continuing in the course, some have changed courses and others are working at various jobs. It has been difficult to keep in touch with all the boys, but some have written us from time to time and we are happy to give the following report:

J. N. Hall, Martin, Tenn., 1936, completed aeronautics at Purdue 1940, now in flying school in Tulsa, Okla.

Jack Gray, Dover, Tenn., 1936, U. S. Public Roads Administration, Gatlinburg, Tenn., running a transit.

Edward A. Owen, Moscow, Tenn., 1936, Soil Conservation Service, Cookeville, Tenn.

Edward Townsend, Paris, Tenn., 1936, Tennessee Experiment Station as Junior Soil Surveyor.

Jack Tate, Troy, Tenn., 1936, Co-operative Electrical Engineering, U. T. Knoxville.

Oscar Barnhill, Savannah, Tenn., 1936, Postal Clerk at Savannah. Still says he intends to finish his engineering course.

W. E. (Bill) Darnell, Union City, Tenn., 1936, TVA, running transit in East Tennessee.

Billy Pope, Jackson, Tenn., 1936, Co-operative Electrical Engineering, now with Firestone Tire & Rubber Co., Memphis, Tenn.

Brantford Elliott, Thomasville, Tenn., 1936, Co-operative Agr. Engineering, U. of T. at Knoxville.

H. L. Wilson, Kerville, Tenn., 1936, Back on the farm at Kerville.

Kemp B. Adams, Greenfield, Tenn., 1936, Back on the farm.

Jewell M. Hall, Memphis, Tenn., 1937, Firestone Rubber Co., Farm Implement Tires.

Thomas F. Fuller, Dyersburg, Tenn., 1937, Goodyear Tire & Rubber Co., Corinth, Miss.

James Lennon McAdams, Greenfield, Tenn., 1937, Co-operative Electrical Engineering, U. of T., Knoxville, now with Southern Ferro-Alloys Co., Chattanooga, Tenn.

Bedford F. Mooring Tiptonville, Tenn., 1937, Rural Engineering at Knoxville, now on construction job at DuPont Plant in Memphis, Tenn.

Harry H. Kroll, Jr., Martin, Tenn., 1937, Engraver at County Times, Martin. (Confidentially, he has a girl, BELIEVE IT OR NOT.)

John T. Murphy, Saltville, Tenn., 1937, Agricultural Engineering at Knoxville.

Hardy Parker Pitts, Saltville, Tenn., 1937, U. of T. at Knoxville.

Buster Roberts, Henderson, Tenn., 1931, Agricultural Engineering at Knoxville.

Wm. C. Bolton, Memphis, Tenn., 1937, Agricultural Engineering at Knoxville.

W. T. (Cal) Bond, Goodlettsville, Tenn., 1937, Sporting Goods Store in Nashville.

Paul Bradley, Primm, Tenn., 1937, U. S. Army.

Harris H. Williams, Nashville, Tenn., 1937, Agricultural Adjustment Adm., Nashville.

William (Red) Arnold, Nashville, Tenn., 1937, U. of T. Knoxville.

Albert Swearingen, Greenfield, Tenn., 1937, Painting in Chicago, but wants to continue Agricultural Engineering at Knoxville next fall.

John Whitcomb, Martin, Tenn., 1937, Guide in Ford Exhibits, New York World's Fair.

James Stoker, Sharon, Tenn., 1937, U. S. Government at Washington, D. C.

Monis Good, Pickwick Dam, Tenn., 1937, U. of T. at Knoxville.

Jon H. Griffin, Gates, Tenn., 1937, Teachers College at Memphis, planning to enter school at Knoxville in fall.

Billy Routon, Paris, Tenn., 1938,

Electrical Engineering at Knoxville.

Jack Whitson, Obion, Tenn., 1938, West Point Military Academy, New York.

Marshall Falls, Savannah, Tenn., 1938, Electrical Engineering at Knoxville.

Evelyn Passmore, Decaturville, Tenn., 1938, Teachers College at Memphis, but still has Chemical Engineering on her mind.

Edward Osborn, Arlington, Tenn., 1938, Firestone Tire and Rubber Co., Georgia.

James (Humpty) Campbell, Humboldt, Tenn., 1939, Tennessee Highway Dept., at Henderson.

It is hoped that students reading this article, who have studied engineering at the U. of T. Junior College, but whose names do not appear on the above list, will write us about themselves and their plans so that we can pass the word on to others who are interested. The Engineering Department hopes to publish a news letter from time to time, which it will mail to all whose correct addresses are on file. Please take notice and keep us posted. We are interested in you.

NOTE:—The year following name and town indicates the session when student entered the Junior College.

WORLD IS CALLING FOR YOUNG ENGINEERS

A large number of inquiries have come into the office about courses in engineering. From all appearances next year will show a record enrollment in Agricultural Engineering. If this particular interest continues to grow it will be necessary to add another instructor in Engineering. Young men of the South are accepting the challenge to train themselves for the positions of leadership which are fast developing. It is no longer necessary for our professionally educated boys and girls to leave native sections to find a future. We need them at home. Our local branch of the University of Tennessee has a real contribution to make in training young engineers, and is meeting the challenge in a large way.

At a recent gathering of former students of Engineering enrolled at the Junior College during the past four years, high praise was given the instruction received from this institution. Great emphasis was placed on the individual attention given each student by his instructors, which fact has saved many from failure and given others a good foundation for their advanced studies.

To those boys in grammar school and high school who have dreams of becoming engineers the warning is given to get all the mathematics you can, and get it well. Practice exactness and patience in all duties. Mistakes are costly in engineering as well as disastrous to the reputation of the maker.

Savings On Picture Show Tickets Effected by Buying Through All Students Club

Both new and returning students will be glad to learn that Mr. Joe Brown, our friend who is manager of the Capitol Theater, has made it possible for the All Students Club to sell show tickets for the old price of 25 cents. This makes a saving of four cents on each ticket over what they will cost you down town.

Last year Mrs. Reed sold over 2,000 show tickets and Mrs. Blackman over 1,700.

Poultry Specialist Shows Interest In Ag Engineering Range-Laying House Plan

Mr. A. J. Chadwell, poultry specialist with the Extension Department, was very much interested in the confinement range and laying houses built by the Agriculture Engineering department last year.

The Electric Tractor Co. has promised to loan the Agriculture Engineering department a track-type tractor for the farm machinery classes next year.

Marguerite Adams, 1936, received her degree in liberal arts from Murray State Teachers College, Murray, Ky., in June, and will teach in the high school at Kenton, Tenn., next year. While in Murray, Marguerite made her home with Mr. and Mrs. W. E. Derryberry, former members of the Junior College faculty.

Volette Staff Will Enjoy Use Of New Office Of Its Own On Return To U-T in Fall

While Old Main is having his face lifted, the Volette is coming upon more dignified years. Now it will be housed in an office of its own. The little used room between the offices of H. H. Kroll and D. C. Allen has been put in a state of renovation for editorial occupancy in the fall.

The walls have been freshly chinked and newly painted. The floors have been done over. A desk for make-up has been provided. (This was the ancient wooden ship that lay submerged for ages down in the dusty, spider-webby room in the basement next to the darkroom; the top has been knocked off, leaving a vast area of fine weathered quarter-sawn oak.

But it will be just grand for making up the paper. Lighting has been installed. Maybe there will be a shingle hung out—who knows? There is a dark rumor of a new typewriter and desk for the editors. If the outside window by some dark necromancy is converted into a door, with steps leading down into the vast open spaces, we would be astounded; but there is talk of it, after all.

Here in this renovated domain Colleen Terry will guide the editorial destinies for the fall quarter, and James Glasgow will be business manager.

FLORENCE ELLIOTT VISITS FLA.

Florence Elliott, '31, instructor in Physical Education, will leave Aug. 4 for Miami, Fla., for a vacation of two weeks. Mary Tenney Jeter, '33, will also be in the group to swim and bask on the beaches.

Aubrey Sammons, Joe Sammons and Mike Richmond are vacationing in Florida. They were at the Junior College in 1936 and 1937.

Dorothy Washam Tartt (Mrs. Jas. E. Tartt, Jr., Paducah, Ky.) is the mother of a small son, Thomas Edward Tartt, born July 3.

Born to Mr. and Mrs. Howard L. Bruer of Knoxville, Tuesday a son. He has been named John Michael. Mr. Bruer is a former resident of Obion County. He was a member of the class of 1929.

James Hall, '38, Knoxville '40, is now teaching vocational agriculture at Rutherford.

CHICKEN DINNER

Faculty Guests of 4-H Clubs During Two Weeks

Following a delightful annual custom, the faculty and their families were the guests of the 4-H Clubs, host Judd Brooks, hostess Miss Mildred Jabcocks, on Tuesdays and Wednesdays of each week. The refreshment was delicious fried chicken. There is no point in stating those present. On one or the other weeks every faculty member was present.

RANDOM SHOTS

James Howell is planning to come back about Aug. 20 and shine up the Industrial Arts building for the fall. He has some new ideas about how slick floors should be and is planning to try them out.

Can you imagine Scatter Carlton being janitor to a building which is headquarters for 250 good-looking 4-H Club girls? Well, it happened.

The Farm Surveying Class was called on account of rain six times this summer. General Lumpkin says that is some kind of a record, but he also says that class never misses—rain or shine!

SUMMER SCHOOL CLOSSES

The summer session of six weeks duration closed on July 19. The enrollment for the summer exceeded expectations, and indications are that the summer session will remain an established part of the Junior College calendar, as it has in the past. This summer school offers courses leading to a degree, or to certification of teachers. A number of students in the regular year make use of the summer to complete work that they lack in other directions. Thus the summer session helps both teachers and regular students.

STANFORD OUT FOR FEW DAYS

Gene Stanford, business manager, was out a few days the past week with ivy poisoning. Mr. Stanford took several scouts out on a week-end trip recently and had the misfortune to get poisoned. He is back in the office now.

J. E. McMahan Sheds Light On Agricultural Courses And The World of Today

The United States with only two per cent of the world's farm population and less than five per cent of the world's good agricultural land is the greatest agricultural nation in the world. From a production standpoint the farmer of the United States has much of which he can boast. It is true that he has conquered a continent. He has cleared the land, helped build factories, cities, highways and has helped in making many other improvements. Today due to modern means of production and to certain other economic factors the United States has a surplus of most farm commodities. This fact, however, should not lead one to feel that the United States is capable of continuing this rate of production over an indefinite time. Many factors point to the fact that the peak has been reached and that in order for this peak to be maintained certain changes must be brought about.

The main factors affecting the growth and development of any country depends upon the type of people and usable resources. A nation will prosper if it is bountifully blessed with natural resources only if they are properly developed and utilized. During the conquest of this continent man has often used unwisely the natural resources. Within recent years the leaders of the United States have attempted to establish a balanced ecology. The aim is still to produce better crops and livestock and also to develop a farm program that will increase the fertility of the soil from year to year. During this period more agricultural college graduates have been given employment as leaders in this great movement than during any other period. The demand for well qualified graduates in the school of agriculture should continue for many years.

From the professional standpoint there are many branches of agriculture. The student may prepare himself for work in vocational agriculture, dairy husbandry, dairy manufacture, forestry, entomology, agricultural economics, animal husbandry, various branches of agronomy, horticulture and many other fields. In recent years there has been a good demand for well-trained men in all of the branches of the field of agriculture.

A well-trained mind is always an asset but a trained will and a directed ambition are also necessary if success is to be attained. Training is worth very little without a purpose and a determination to carry out one's plans. Each high school graduate owes it to himself to make the most of his abilities—be they great or small.

Preparedness is more important than ever before. The road to success and distinction today has many obstacles. To be assured of success one must be prepared to accept the invitation of opportunity as it knocks at his door.

At this season of the year there are many rural boys who have completed their high school courses; many of these wonder what their next move should be. This question must be debated in each individual's mind—in many instances the decision has been made—in other cases it will soon be made. Each individual must ask himself the question—Will it pay to go to college? In most cases the question can be answered in the affirmative. If agriculture is to be pursued as a vocation regardless of the type, a college education will pay good dividends.

The course of study outlined in the school of agriculture at the University of Tennessee Junior College is so arranged as to enable the student to complete his work for the B.S. degree in two years at the University of Tennessee or any other agricultural college, after he finishes here.

UT J C Faculty Research And Writing Projects Go On Through Vacation Time

Projects Continue Through Vacation
Strictly speaking vacation is not altogether vacation to many of the faculty people who have research projects in progress, or articles in preparation for future publication. Vacation becomes a time when more attention may be devoted to such projects.

Paul Meek, who has been making exhaustive studies of weather in West Tennessee over a long period of years, continues with his examination of all available data. Wars may come and wars may go but weather continues on, subject to no law but change. Mr. Meek is engaged in seeing if any definite laws of change may be established.

Dr. Carroll C. Bryant has been engaged some while in developing a flotation method of testing such qualities as flavor, sugar and starch content, and a practical way of seed selection for the grower, of the sweet potato. His paper, a report on his findings, is in final draft and will appear in one of the scientific journals.

During vacation while on a visit to his relatives in Indiana David C. Allen will prepare a paper for the Tennessee Teacher on his forensic program and speech work in the Junior College. Mr. Allen has done a unique and valuable work with his speech students, and his paper should have wide appeal.

C. C. Cravens has been engaged for two years, in cooperation with the officials at the University of Tennessee, in a test of hybrid seed corn on the Junior College farm. Mr. Knepp has already prepared two articles, one on the temporary silo, and the other on soil erosion, for the Southern Agriculturist, and he has another in preparation for the coming winter. Ray DeMoss, who has recently published an important contribution in the Jersey Bulletin is engaged at present in preparing some official records of Junior College cows for the same publication.

H. H. Kroll, known widely for his novels and short stories, and much less widely for his serious articles, has a series of articles in preparation dealing with various aspects of college journalism. These are being prepared for the Tennessee Teacher. Kroll will also make a paper out of a research problem in teaching for Peabody Journal of Education. Kroll's articles on the art of writing have appeared in The Editor, Writer's Monthly, and Peabody Journal of Education.

Miss Burney and Mrs. Gatlin, in the library, have more or less perennial projects in progress. Miss Burney, as a member of a committee in the American Library Association, is preparing a self-rating system of standards for all types of schools of higher learning by which they may evaluate their library facilities. Miss Burney's special field is in junior college libraries. Mrs. Gatlin is preparing what is officially known as the college archives, but in ordinary language is a comprehensive scrap-book of clippings of the news and events, and the activities of the faculty people, of the Junior College.

B. F. Farrar is preparing a bibliography of the writings of Harry Harrison Kroll.

Miss Cannon's study is in odd and strange primitive weaves—the handicrafts of the southern mountain people, the Indians of old Mexico, the folk products of South American countries. She has a fine collection of these articles now.

Old Main Gets A Finger Wave During Summer Time

You'd hardly call the repairs in the administration building a permanent. Just the same, when you come back to school in the fall, after enjoying the distinction of being old grads through a cool summer, you'll find the old auditorium with its face—ceiling to you—lifted; and the scarred walls of the class rooms and post-office run repaired with lipstick painted woodwork. Where the Coca-Cola machine plays its ditty and takes your small change real grained wood will be ready to lean against and make your dates—if that is what you do while sipping pop and leaning against the wall. The library walls have been regenerated with much goosy paint, of the usual semi-tan-brindle persuasion; and there will be a real room for The Volette, with desks and typewriter and everything. Including a half-sole for the editor to put his (her) feet after a weary day of chasing down Percy's Column and The Strangers, and other juicy collyums. Be prepared, then, for much improvement, when you come back in the fall to resume your vacation-interrupted vacation.

Agricultural Extension Ser. At Junior Col. Affords Folks A Very Beneficial Service

By SAMUEL G. GARNER
Special Extension Agent

In view of an opportunity for an enlarged service to the rural people of West Tennessee and to the State as a whole a Division of Agricultural Extension Service has been established at the Junior College at Martin. This work was begun June 1, 1937 and the present special extension agent came here to begin the work at that time.

The office for this work is located in the administration building on the first floor. It is desired that all farmers and others interested will also visit this department and make known whatever help or aid this department may be to them. The work of this department is all field work. The work is carried out in cooperation with the County Agents, Home Agents and farmers of the various counties. The representative at the Junior College works with the District Office and Mr. Judd Brooks at Jackson in routing and planning for the work.

Many different types of activities are participated in by the local office some of which are as follows: 4-H Club Camps, both local, county and district; community, county, district and State fairs; Rural Electrification; A.A.A. programs; Conservation programs and Camps; Community organizations and programs; Dairy Herd improvement work; and 4-H Club work of all types. Many other activities of a more detailed nature is engaged in by the local agent of the Junior College.

It is obvious that the services of the Junior College to the people of this area has been greatly enlarged by the direct services of this department. In addition, by the coordination of the work of the other members of the faculty through and with the Extension Division a greatly enlarged service of the other departments of the college has been made possible to the people of this territory.

There are many and paramount problems to be worked out and adjustments to be made by our farm people as well as our city people. In fact, our problems and necessary adjustments will never all be completely made, as long as progress is and can be made. It is the purpose of the Division of the Agricultural Extension Service, located at the Junior College, and the purpose of the college and the University of Tennessee as a whole, to render whatever service it may be possible to give toward the solution of our many rural problems of today and the future.

Rotary Club Hears Home Demonstration Agent Talk

After an enjoyable luncheon hour the members of the Martin Rotary club heard an interesting discussion by Miss Marie Baker, Weakley County's new home demonstration agent, on her work in the County. Miss Baker, one of the outstanding students of the Junior College, related the various projects pursued by both the women and girls of the County. Most interesting of the projects was the mattress making, which is designed to give better beds to families of low incomes, designed also to reduce the cotton surplus. Miss Baker stated the cotton and ticking are furnished by the Federation.

After adjournment the Rotarians inspected various articles of handicraft made by the women under the supervision of the home demonstration agent. Among these were rugs and fire screens made of burlap sacks.

ECONOMICS GRADUATES ARE CONTINUING COLLEGE STUDIES

According to the office of the Registrar more home economics graduates are going on to college this year than ever before in the history of the school. And, of course, "Big U. T." heads the list in the schools of their choice. The following have had their transcripts transferred to Knoxville:

Florence Bransford, Virginia Canada, Mildred Childers, Corinne Davis, Ruth Erwin, Mildred Fisher, Gladys Gibson, Kathryn Berry, Jo Glover, Mary Winifred Greer, Will Hardin, Dorothy Jackson, Edith Keaton, Ruth Latimer, Mildred McIntosh, Margaret McLean, Reba Milner, Ann Lou Nance, Edith Robey, Mildred Shanklin, Connie Sherrill, Lelabelle Scruggs, Frances Speight, Sarah

Junior Col. Library Reports Its Gifts Of The Year

Of the 681 books added to the Library in the year just closed, 161 were donations from friends of the College. Of outstanding interest and popularity were two copies of Harry Harrison roll's "Keepers of The House," one the gift of Mr. Kroll and one the gift of the Librarian. These supplemented the two copies which had been added by purchase.

Four libraries each gave a book, and one library made a valuable contribution of old magazines. Through her mother, Miss Florence Elliott also gave old magazine files, and Mrs. H. N. Moore and Mrs. T. N. Ryan made similar gifts. The Martin Rotary club subscribed to their magazine, "The Rotarian," for the Library, and the Librarian gave as received her copies of "Holland's Magazine" and "Better Homes and Gardens." Members of the local branch of the American Association Women saw that the library had files of their journal.

Mr. and Mrs. Kroll presented Donald Davidson's interesting text "American Composition and Rhetoric," and the two novels, "The Brandons," by Angela Thirkell, and "Each to the Other," by Oliver La Farge.

Among the gifts made by Wilfred Head was "Over the Top," by Guy Empey, one of the best sellers of the first world war days, and among those made by Sam Ozier, graduate of 1936 was Marguerite Wilkinson's "Contemporary Poetry."

To the Rental Collection, Miss Mary Vick Burney gave, "How Green was My Valley," by Richard Llewellyn, "Children of God," by Vardis Fisher, "The Country Lawyer," by Bellamy Partridge, and "Moment in Peking," by Lin Yutang. Other gifts made by Miss Burney were "The Loving Spirit," by Daphne Du Maurier, and Publication No. 4 of the Texas Folk-Lore Society.

The Federal Writers' Project presented "Washington, City and Capital," and the New York Chamber of Commerce, "Conquest by Immigration," by H. H. Laughlin.

Others aside from government agencies making gifts were, The White House Conference on Child Health and Protection, The Carnegie Foundation for the Advancement of Teaching, The American Can Company and Mr. B. F. Farrar.

UT English Dept. Report Includes Jr. Col. Supplement

A 27-page annual report of the University of Tennessee English department is augmented this year with a 9-page appendix listing staff, classroom instruction, professional activities and public contacts of the Junior college group, headed by Prof. B. F. Farrar.

Summer months were used by Mr. Farrar in teaching first half and attending the University of North Carolina second half. Mr. Allen taught in summer first half and attended University of Indiana second half. Kroll taught in summer school and completed a novel the last half. D. C. Allen and B. F. Farrar worked toward Ph.D. degrees.

In public contacts Allen made six speeches and took his forensic club on a score or more speaking trips to high schools in this territory. Farrar made fourteen talks. Kroll made seven appearances, including the Southern Literary Festival at the University of Mississippi. Farrar did extension teaching and had charge of the Inter-scholastic Literary League. Kroll sponsored the Volette and had charge of publicity.

Kroll's publications, an incomplete list, included a novel, "The Keepers of the House," published also in Canada by McClelland & Stewart, Toronto; an article in Southern Literary Messenger, three short stories, two serials, five book reviews, and two poems.

Carr, assistant agent; and Miss Georgia Roberts, home agent; Hardin, W. C. Mitchell, and Miss Gladys McMahan; Crockett, O. J. Nunn and Miss Katherine Hopper; Hardeman, M. L. Alphin and Miss Margaret Holcombe; Fayette, C. O. Woody and Mrs. Laura Smith; Haywood, O. V. McKnight and Miss Marie Taltack; Chester, N. S. Martin.

Deane Strong, Martha Sue Turner, Dorothy Wash, Sara Helen Wheatley and Jo Young.

Faculty Vacation Plans Include Many Ways Of Passing the Summer Away

This summer faculty plans for vacation include about every activity from globe trotting to arm-chair adventuring. Some members will dust off their Ph.D. briefcases and get the old academic bean to stewing; others will ramble down the shady lanes of poison ivy and return with sun-tan and happy faces; one or two will celebrate release from formal teaching by writing. The list follows alphabetically, with no reflection or otherwise on the merits of their summer fun.

David C. Allen and family will summer in Frankfort, Ind. They have already gone, having departed the campus July 21. Mr. Allen plans to work on his Ph.D. in speech at Indiana University, Bloomington, Ind., from Aug. 15 to Sept. 1. Dr. and Mrs. Carroll Bryant have already left for Cambridge, Wis., their home. Dr. Bryant plans some writing during the summer. Miss Burney will spend the first part of her August vacation in Monteagle, Tenn., and the latter part in Texas. Miss Caldwell will arm-chair vacation in Union City. Miss Cannon will pursue hobby and interests in textiles and various handicrafts by visiting handicraft centers in the southern highlands. Her trip will take her through a dozen centers in Kentucky, Tennessee, and North Carolina.

Mr. and Mrs. Cravens will leave Aug. 5, but at this time their exact plans have not been given out. The same is true of the DeMosses. Miss Edwards will spend her vacation from Aug. 17 to 24 in Knoxville. Miss Elliott plans a short trip after summer school is over. Mr. Farrar will be at the University of North Carolina working on his Ph.D. degree from July 20. Sam Garner and his family have announced no plans. Mrs. Green plans a number of short trips during vacation.

The Hayeses will vacation in Murfreesboro, Tenn., their home. Their address is given as State Teachers, Box 751. Miss Mary Hill plans an extended trip that will take her to Washington, New York, and possibly Canada. The Hortons will visit H. K. Grantham and family in Tupelo, Miss. The Hugs have spent all summer at Columbia University, New York, where Coach Hug is studying. The Knepps will visit in Kansas. The Krolls will be seen around the campus. Kroll will work on a new novel he hopes to have ready for the publishers by the time school opens in the fall. Mr. and Mrs. J. Paul Phillips will leave Aug. 3, but have not at this writing divulged their plans.

Mrs. Reed will visit Texas; and Miss Spence left for Goldsboro, N. C., June 26, to remain until July 26. The Stanfords spent two weeks in May visiting relatives in Oklahoma. Miss Swindler will be home in Newbern, after which she expects to take her family on a motor trip to Florida. S. R. Woods and family will vacation in the mountains, the rest of the time in Murfreesboro among kin folks. Mrs. Patterson's vacation address is 273 12th Ave., N., Birmingham, Ala.

The Meekses have already had vacation, spending the time with Mr. and Mrs. T. J. Campbell, in Dayton, Tenn.

Anita Osborne is going to Memphis to enter the School of Nursing. Mildred Pierce will go to West Tennessee State Teachers and Postine Thomas is going to Murray.
